

Retrofit for KÖB boilers

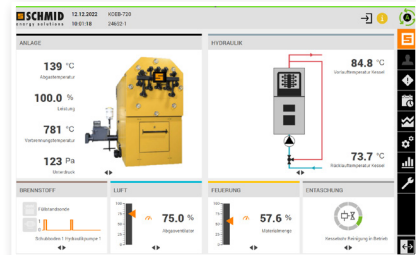

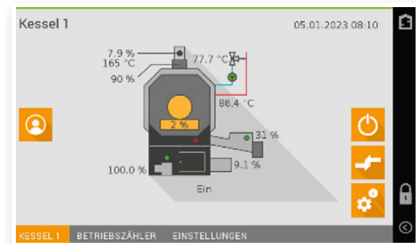

Controller Retrofit for your KÖB, Pyrot* and Pyrotec* boiler

As many parts for KÖB Pyrot* and Pyrotec* boilers with the ÖKOTRONIC, ECOTRONIC and Pyrocontrol07 controller models are no longer available on the market, we at Schmid Wolfurt decided to develop a ready-made retrofit kit specifically for these controllers.

The retrofit kits are specially adapted to KÖB systems and were developed and tested by experienced, ex-KÖB technicians.

before

after

Your benefits

- Parts availability ensured
- No long shut-downs lasting weeks in case of defective parts
- Support from ex-KÖB Holzheizsysteme GmbH employees
- Cloud access - monitor the system via your PC, tablet or smartphone
- Receive fault notifications on your smartphone
- Integrated cascade control for multiple boilers (no master control required)
- Live updates online
- Data storage for key system information
- State-of-the-art controller. Available at a fraction of the cost of a new boiler
- Option to conclude a remote maintenance contract with Schmid Wolfurt:
 - Your system will be monitored and optimised by us (ignition behaviour, load operation, behaviour analysis)
 - This enables us to optimise the system (emissions, wear, etc.)
 - Online support from a technician
