

# Brick sets for KÖB Pyrot\* / Vitoflex 300-RF\*

For the optimal and efficient operation of your boiler

The fireproof shaped bricks in the combustion chamber play a crucial role in protecting the boiler and therefore require regular inspection and replacement if necessary. For this purpose, special sets have been put together that contain all the relevant refractory bricks and the necessary accessories to ensure a smooth replacement and to ensure the long-term efficiency of your plant.
